Rockland Forests in a Changing World

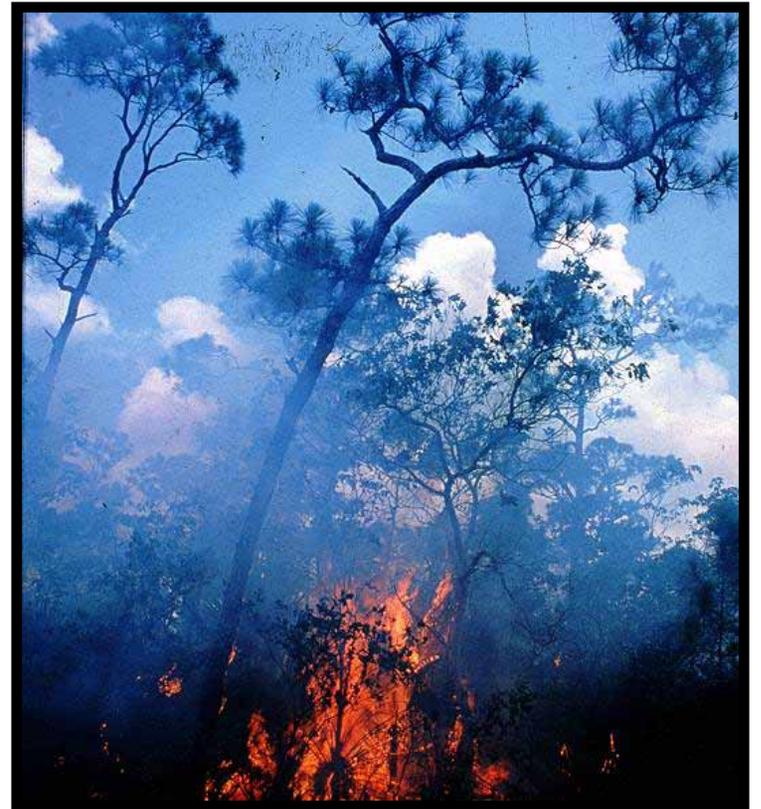

Pine Rockland Working Group

Pine Rockland

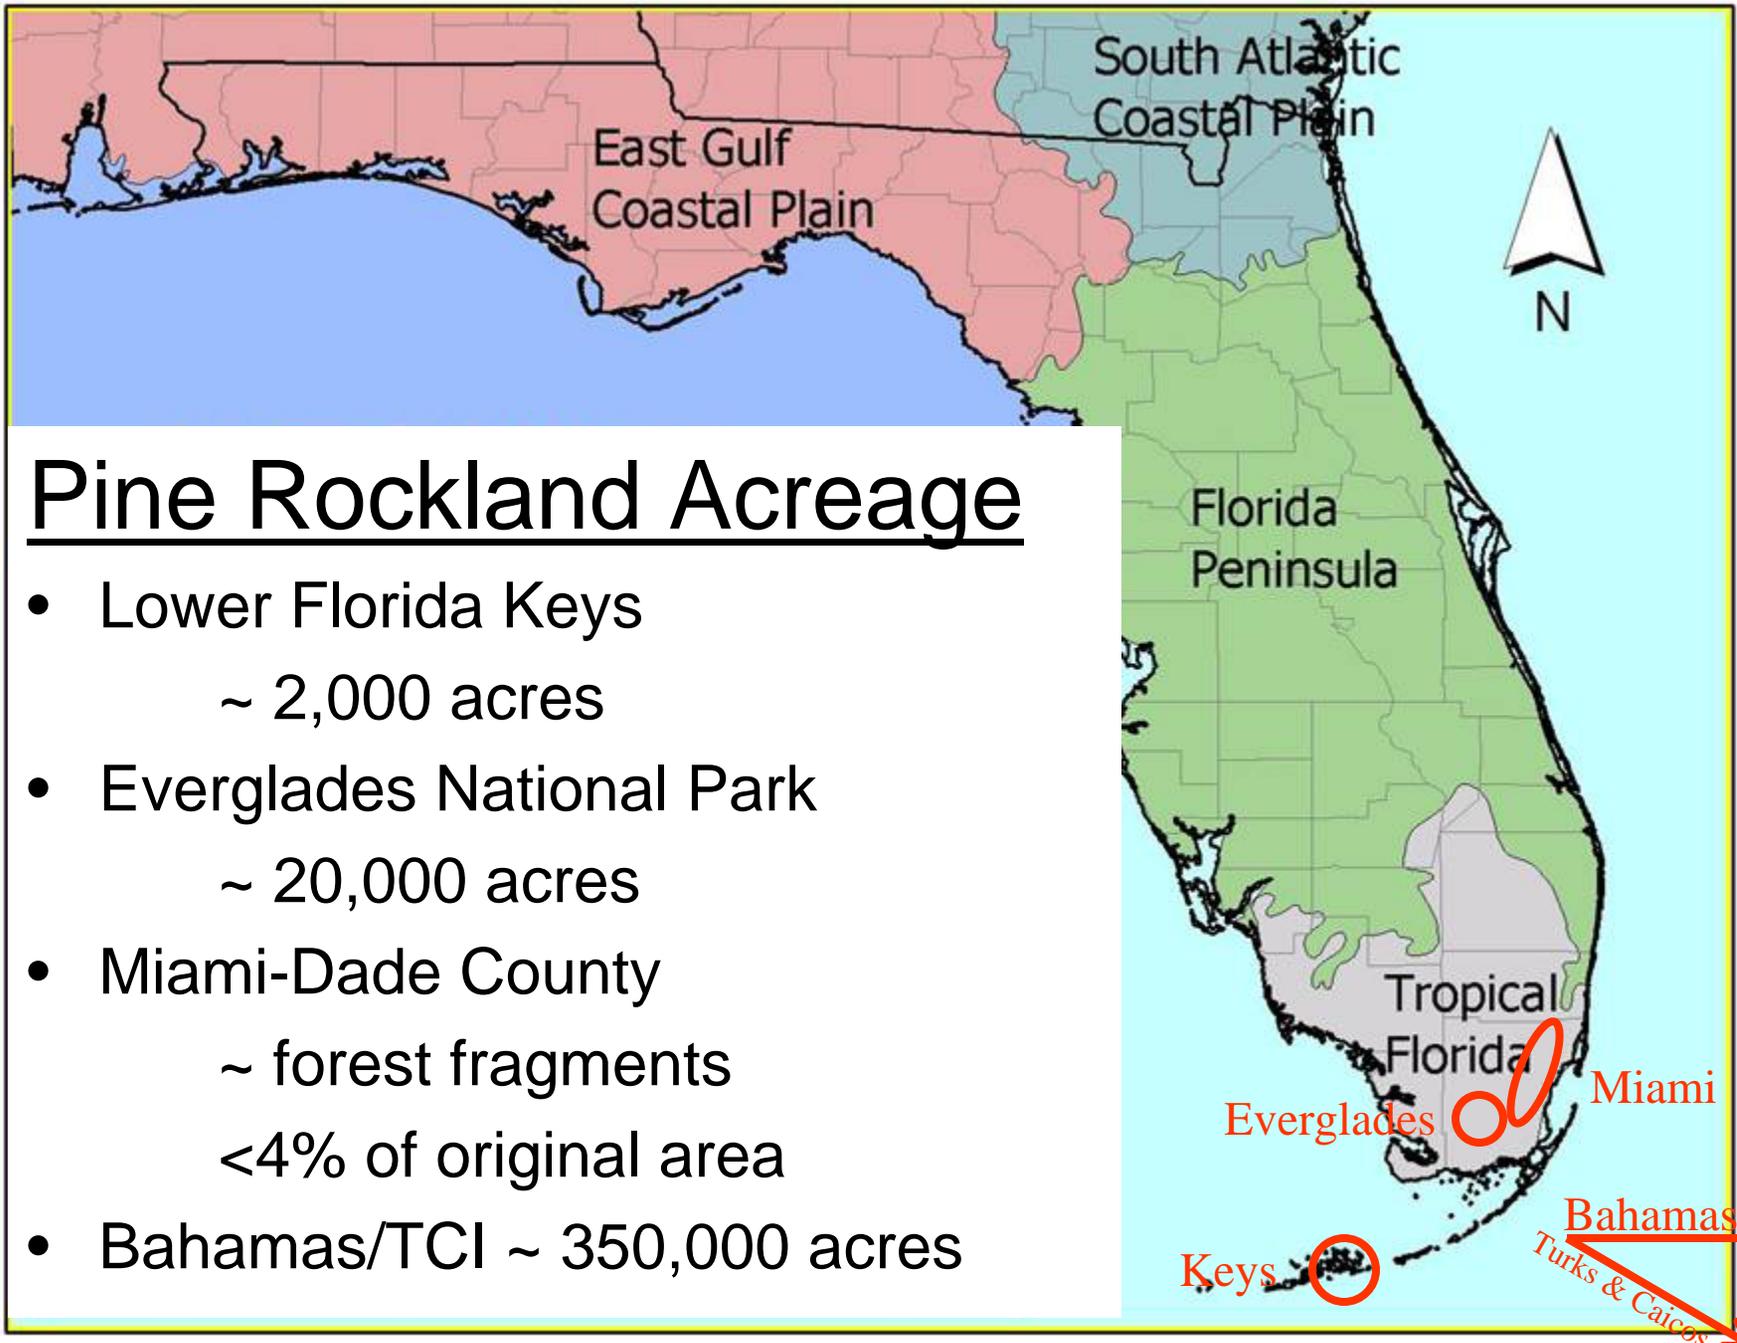

Fire Dependent

High Endemism

Pine Rockland Working Group

The mission of the Pine Rockland Working Group (PRWG) is; “to maintain and restore the pine rockland natural community, associated species, fire and other natural processes upon which they all depend.”

Vision Statement; “The members of the PRWG envision a future in which the pine rocklands of today are all still with us at the turn of the next century, but in better condition, and with a constituency of supporters in South Florida and the Bahamas and Turks and Caicos to help keep them that way into the future.”

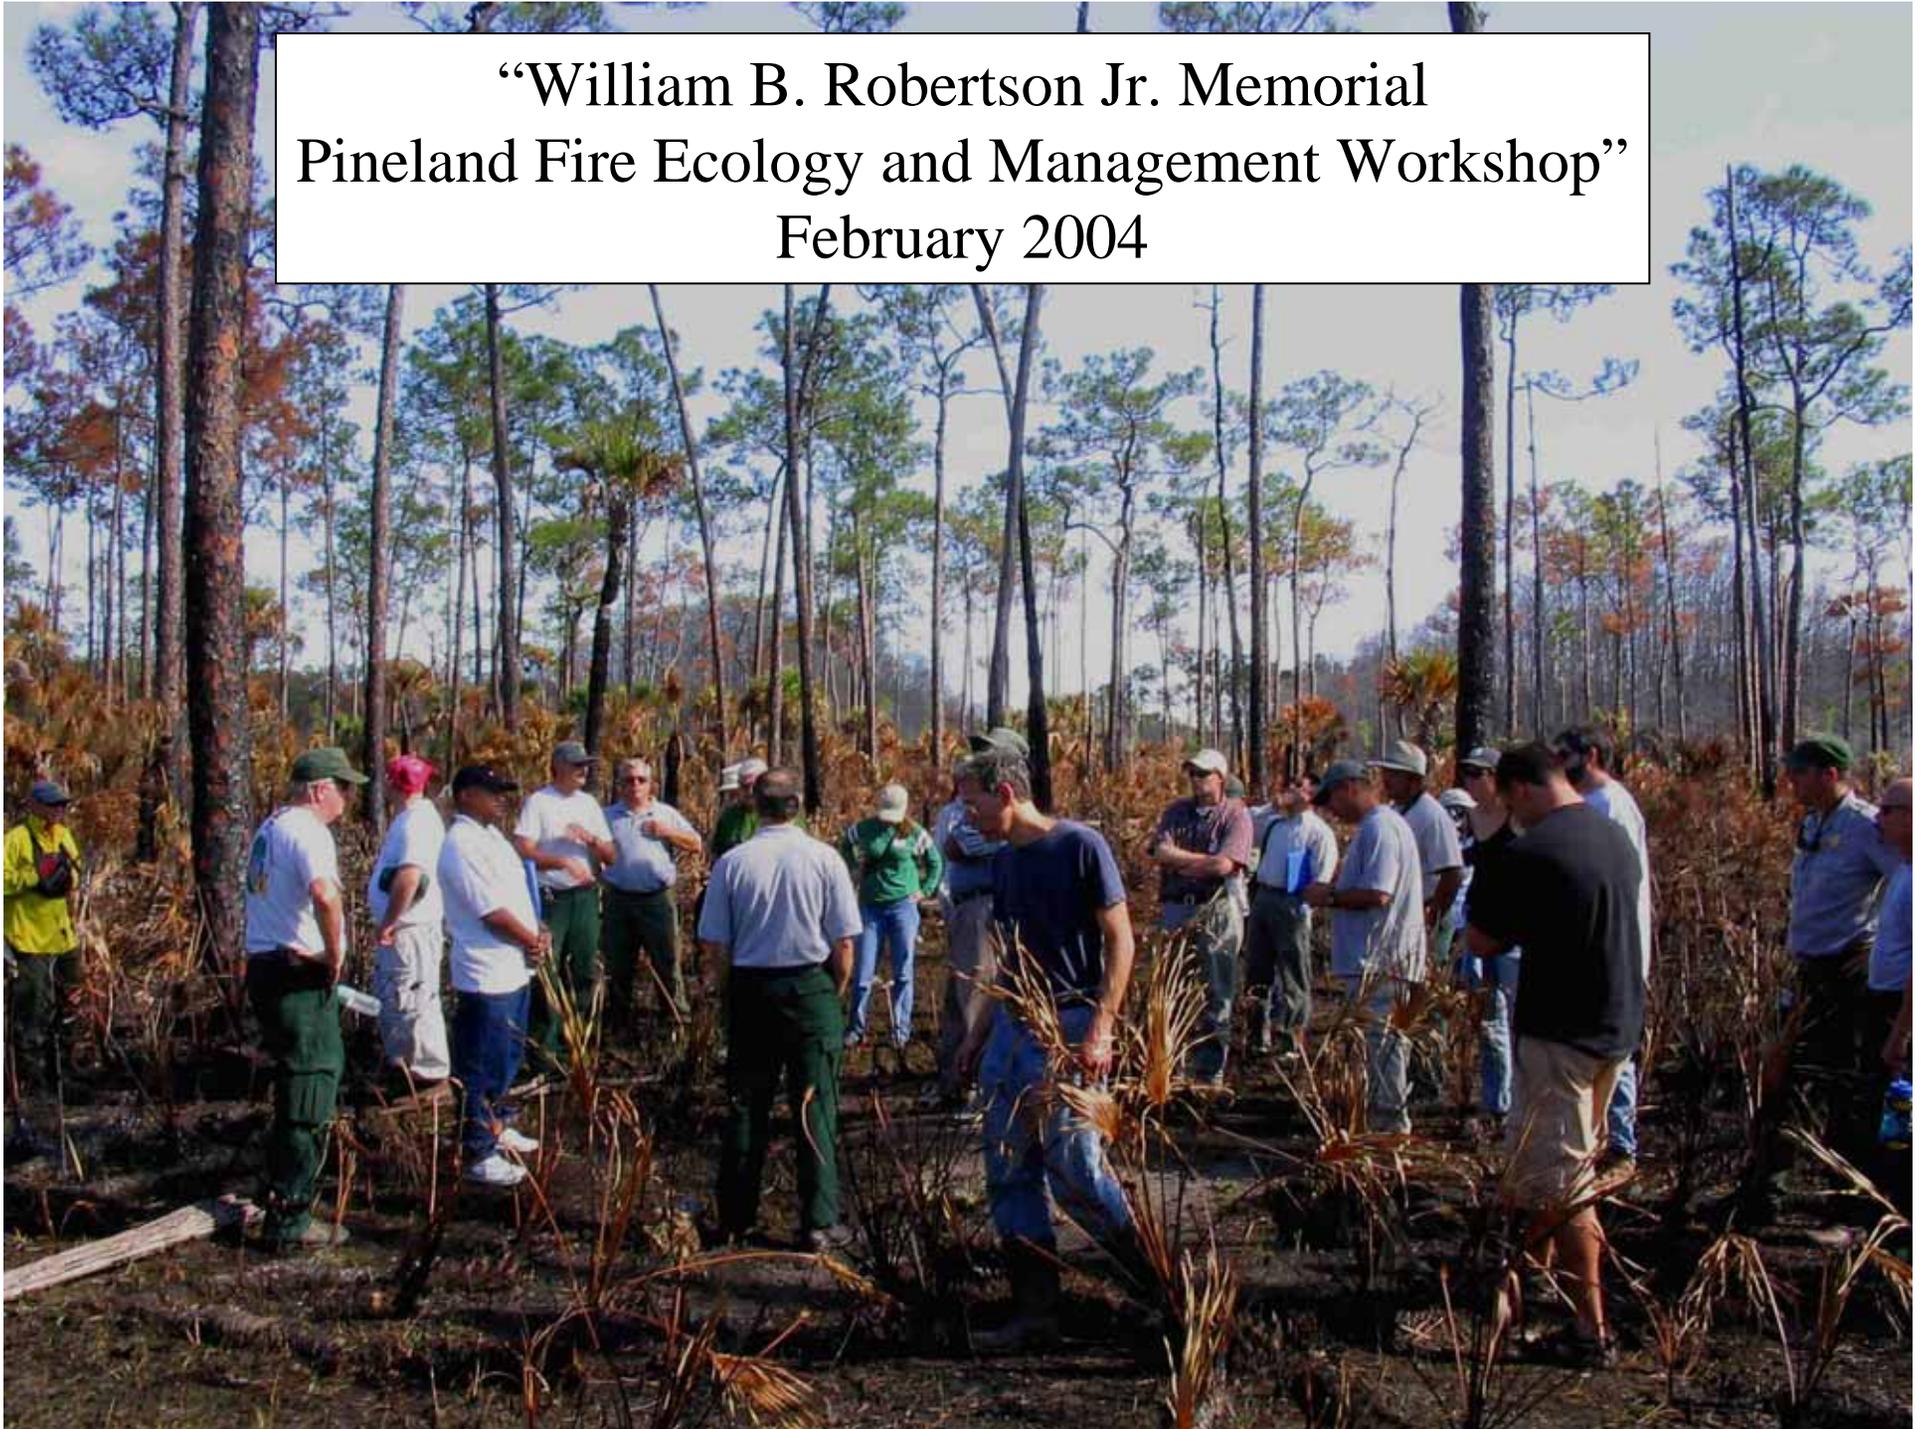

PRWG Goals

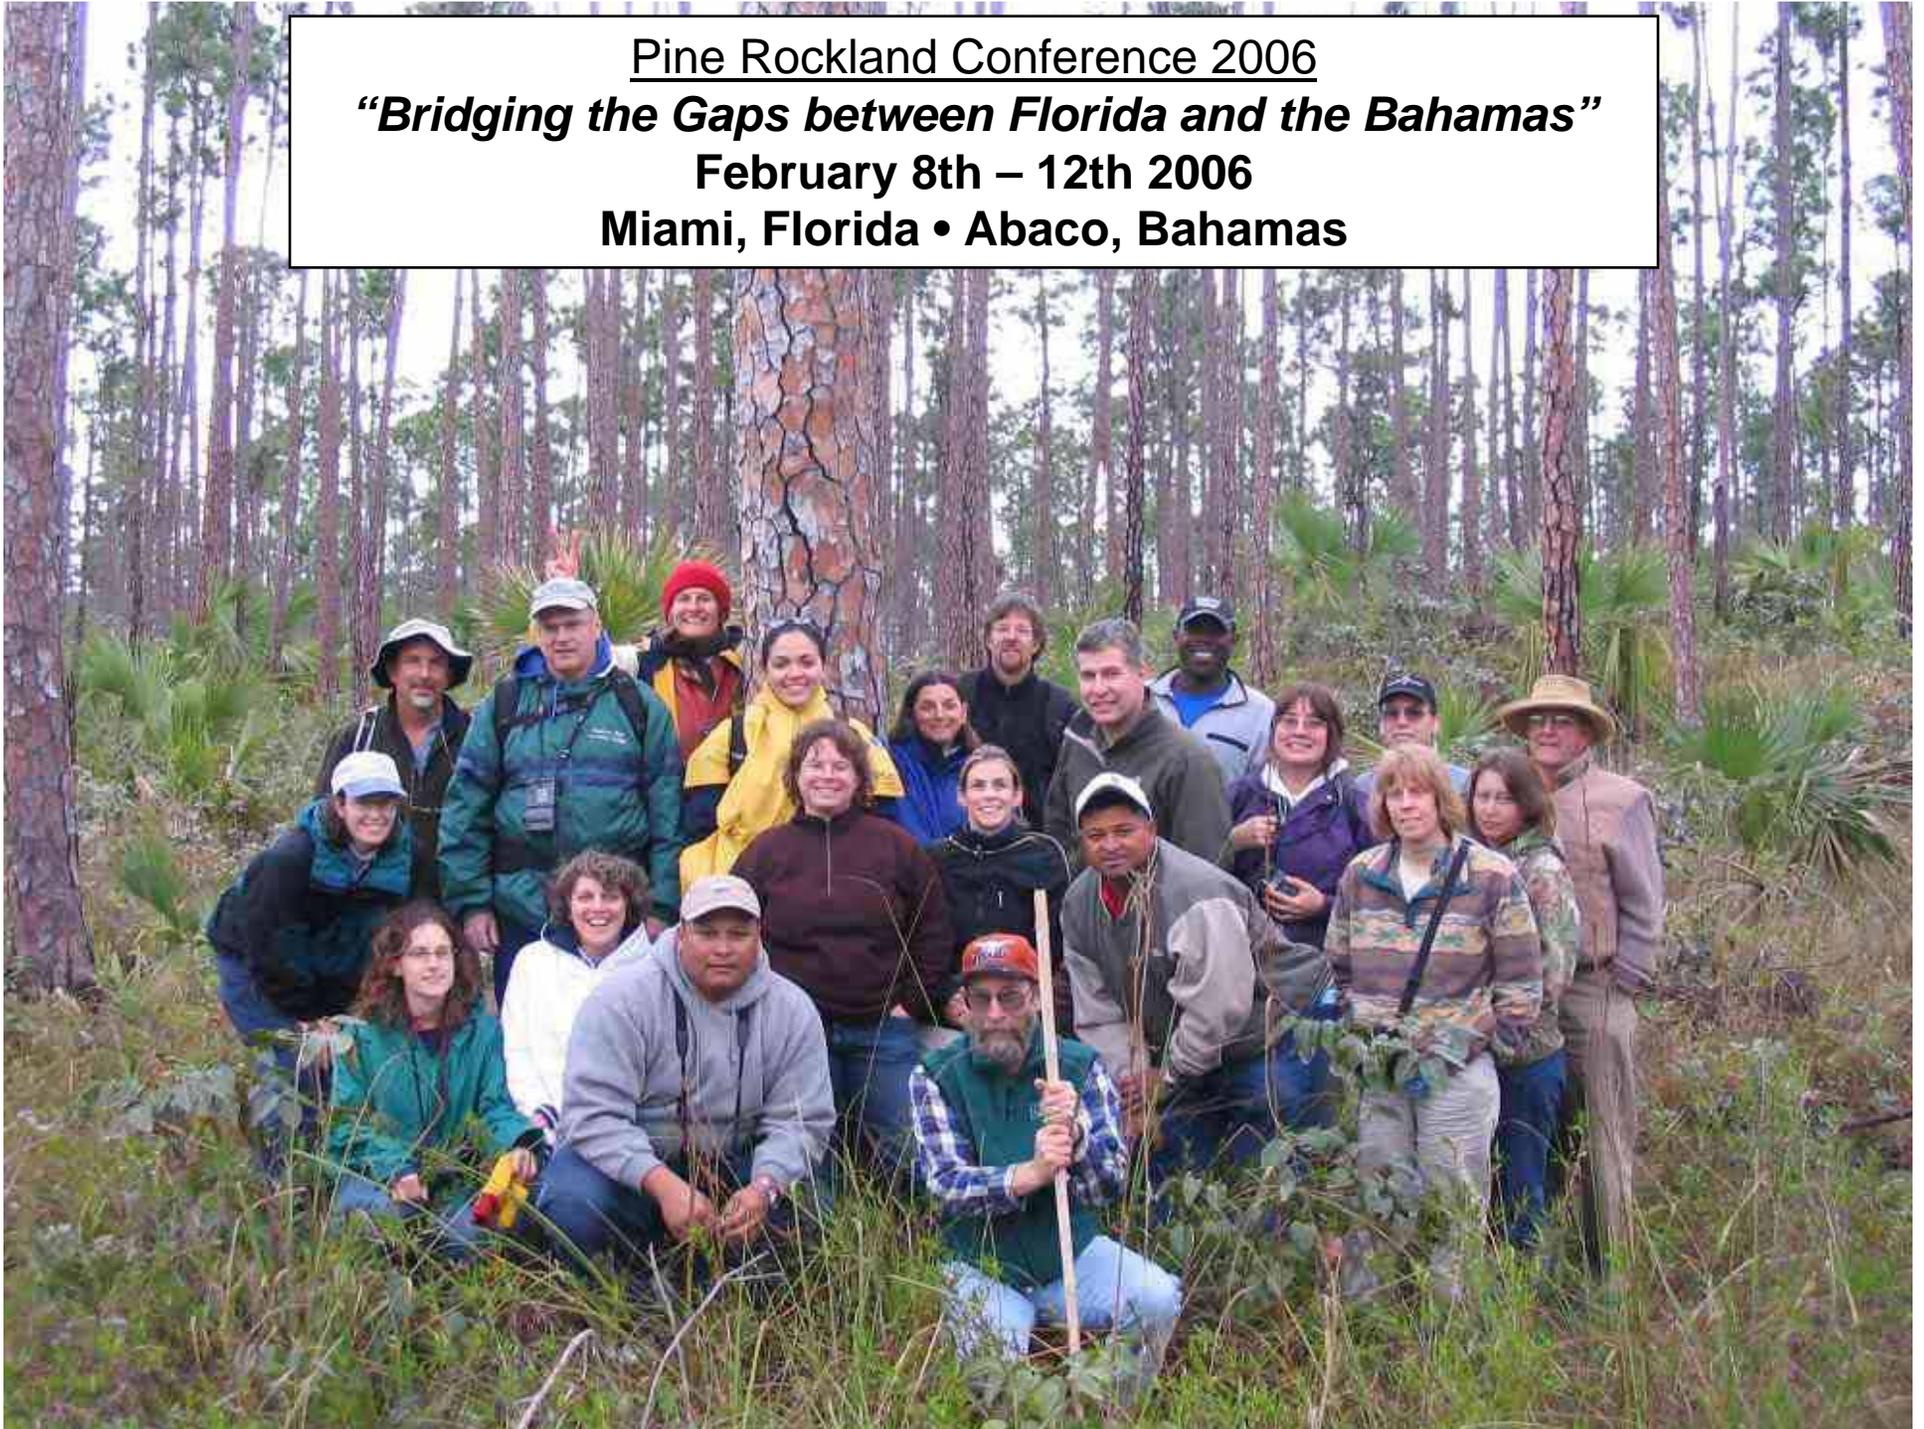

- Enhance public outreach
- Coordinate fire effects and biological monitoring efforts across sites
- Foster research projects
- Enhance cooperation and resource sharing
- Host regular conferences

“William B. Robertson Jr. Memorial
Pineland Fire Ecology and Management Workshop”
February 2004

Pine Rockland Conference 2006
“Bridging the Gaps between Florida and the Bahamas”
